

CHEVY LS SERPENTINE KIT FINDER

GUIDE OVERVIEW

This guide will help you identify and select the correct Wraptor Serpentine Kit to fit your Chevy LS Engine. This guide applies to Generation III, IV & V, and it's critical to properly identify your **'RPO CODE'** (primary info) to ensure the right fit as there are over 55 variations to these engines.

IDENTIFY YOUR ENGINE TYPE BY YOUR RPO IDENTIFICATION CODE

If your unsure exactly what exact LS engine you have, you can do so via your Regular Production Option (RPO) placard or sticker (pictured left). The codes listed on your placard are a combo of 3 alphanumeric characters. Find the code that begins with 'L' (circled in red) and match that to the guide to properly identify your engine and compatible kit. The RPO placard / sticker can be found in your glove box, on the trunk floor or inside the driver's door panel.
